Hi Mike, this is Dennis Rader, supervisor of the Technical Research section of NBIDs. I've attached an invoice that was returned to us twice by the Post Office, perhaps you have a better address to send it to? On the copy of the envelope, you'll see both of the addresses we've attempted. This account has already gone to collections for this year, but it could be pulled out if you have more information. Could you let me know? Thank you.
